ABOUT ME

I'm a hard-working person who is constantly looking to acquire new knowledge and improve my skills to become a high-value professional in the software development industries.

EXPERIENCE & PROJECTS

Engineering Repository API
2023 – 2024
Managing, designing and development of an API as the backend of the upcoming engineering repository for the IBERO Puebla community using Python and Django REST Framework.

Desktop and Mobile Apps for FISAIR Air Humidity Control
2023 – 2024
Collaborating on the designing and development of mobile and desktop applications for FISAIR Puebla.

EDUCATION

IBERO Puebla
2020 – 2024

- Currently studying Engineering in Computer Systems with an average of 9.57.
- Representing the Computer Systems, Mechatronics and Electronics Engineering careers as a member of the "MES" Representative Student Council.
- Collaboratively leading the IBERO Puebla's IEEE student branch as the Webmaster and member of the executive committee.

American School of Puebla
2005 – 2020

- I studied with the IB program and achieved an average of 9.57.
- Formed part of the Honor Society and Scientific student group
- Obtained a score of 623 in the TOEFL ITP test.
